

## MAKE NEW ATTEMPT TO OVERRIDE WILSON

Another Effort Will Be Made to Pass Daylight Saving Bill Over President's Veto.

## DEMOCRATS TO JOIN HANDS

Many Expected to Assist in Putting New Bill Through—Will Probably Come Up Friday.

WASHINGTON, July 16.—Republican leaders of the house, supported by party leaders in the senate, agreed today to attempt re-passage of the daylight saving bill with a daylight saving repeal rider, despite the president's veto.

Proponents of the daylight saving law, supporting the interstate commerce commission to fix standard time zones, however, would not be discouraged under the proposal.

In the early morning, legislative steering committee and after assurances had been given that the committee would support the daylight saving bill, the committee was authorized to pass the bill, which was introduced by Chairman Haughen of the house agriculture committee, today re-introduced the agricultural bill.

House leaders, although doubting that the repeal measure, with the daylight saving rider, would meet objection of President Wilson, said that many democratic members would join with a majority of the republicans in passing the new measure, which would be introduced by Chairman Haughen and other members of the agriculture committee. They said, had insisted on introduction of the repeal provision, but the bill without the repeal section.

Although the house agriculture committee had decided not to act on a new bill until Friday, a later decision by Chairman Haughen revoked the agreement and the committee was called to meet tomorrow. Con-

## J. Burr Gibbons Is Added to the State Staff of "Colonels"

J. Burr Gibbons, prominent in patriotic and club work in the city and famous as the owner of the "Colonels" Manufacturing company, was today named as a member of the staff of the rank of "Colonel" in recognition of his work during the war.

Colonel Gibbons was chairman of the Tulsa County Council of National Defense, which made a wonderful record during the war, and much of the success of the various Liberty loans and patriotic drives was due to his untiring and enthusiastic efforts.

Consideration of the agricultural bill on the floor of the house probably will begin Friday.

### County Teachers' Examination.

The notice of the regular quarterly examination for teachers' county certificates has been made by Mrs. Minnie L. Jones, superintendent of Tulsa county schools. The examinations will be held in the office of the county superintendent, Thursday, Friday and Saturday, July 24, 25 and 26, beginning at 7:45 a.m. each morning.

### Cop Charged With Assault.

Information charging E. D. Backethorne, city patrolman, with assault and battery upon J. B. Davis, on July 16, was filed in the court of Justice A. C. Mayes Wednesday afternoon. Davis claims that the patrolman beat the complainant with his fists without cause for such actions.

### Transport Disabled.

NEW YORK, July 16.—Transport Edward Lorenz, bound from Norfolk to West, reported by wireless to the navy cruiser and transport force here today that she was disabled 100 miles east of New York. Her turbine bearings are damaged, the message stated.

## CONVENTION HALL TO BE "DOLLED UP" SOON

Twenty Thousand Dollars Will Be Spent in Decorating Building and Improving Acoustics.

Halls will be advertised for and contracts let for the remodeling and refurbishing of convention hall within the next few days. The 120,000 sq. ft. building, which will be used for the coming of the fall entertainment season, that participated in was one of the best equipped and handsomest in the entire state.

Refurbishing of the walls and ceilings will also be carried out and while no color scheme has been suggested, several schemes will be requested of each contractor making bids for the work, and a decision made by the mayor, commissioners and other parties interested.

The greatest complaint against Convention hall in the past, is that

the huge structure, with a seating capacity of 2,000 is almost perfect in practically every detail except that the acoustics are bad. Speakers with unusually low voices can scarcely be heard beyond the orchestra pit. To remedy this condition, the walls will be padded and chandeliers made in the interior in such manner that the acoustics will be as perfect as those of great theaters. Remodeling of the walls to meet this condition will use the greater percent of the money to be expended, says Mr. McNulty.

Refurbishing of the walls and ceilings will also be carried out and while no color scheme has been suggested, several schemes will be requested of each contractor making bids for the work, and a decision made by the mayor, commissioners and other parties interested.

## BEAUTY PARLOR MAID CAUSES LOTS OF FUSS

Electric Iron Burns Little of Everything While Curious Auto Owner Looks On, Losing Good Car.

When the maid at the Bonita Beach beauty parlor, 229 South Main street, left the electric iron on the ironing board to heat up the other night she started, excitement for the whole neighborhood. First the iron warmed up, then it warmed the board, and not satisfied with merely scorching the cloth, it burned on

through to the table. After the table was warped up a little, it went on through to the floor, burning the floor with smoke.

A man in a new truck car drove by and saw the smoke and the fire department coming up the street. He stopped to look on, leaving his engine running. Pressing his face against the window pane, he looked on in admiration at the progress of the fire, marvelling at the wonders of electricity. When he turned around a minute later he found that some more progressive person had climbed in his car and driven away. Whether the car was recovered or not could not be learned, as the man made no report to the police of his loss. The damage from the fire was negligible.

## FRENCH ADOPT MEASURES TO REDUCE LIVING COST

PARIS, July 16.—Four definite measures intended to reduce the cost of living were decided upon today at a meeting of the cabinet.

First, for a deputy, was appointed a commissioner to execute the ideas agreed upon.

The four plans were:

1. Clemenceau or "vilgrain" food selling booths in Paris will be founded in number and others will be established in other centers of population.

2. Cheap restaurants to supply meals at fixed prices will be started in Paris and in the provinces, under

the control of the ministry of supplies.

3. All war stocks of foodstuffs will be sold to the public, chiefly through the co-operative societies.

4. A special service already organized in the ministry of supplies will seek to curb illicit speculation in foodstuffs.

A bill pending in parliament contains provisions supplementing existing laws against speculation and carries increased penalties.

Engineers on Strike.

LONDON, July 16.—Engineers on the Northeastern railway system went on strike today, seriously disrupting the operation of the rail-

**HOW TO GET RICH**  
You read many ads that tell you *How to get rich*—providing you *"Take a chance"*.

Here is an ad that tells you how to acquire wealth without the chance.

Today a dollar buys 40 cents worth of goods. Today wages are higher than they have ever been.

Time will bring back the value of a dollar.

Make every effort to save now by putting "40 cent dollars" in a savings account and *keep them there until the dollar buys a dollars worth of goods.*

It may be ten years--it may be twenty--but time will adjust the purchasing power of a dollar upwards.

In the meantime your money *will be safe and will be earning you 4% interest, compounded semi-annually.*

A savings account is more valuable today than ever—and more possible
